### Practical Aural Habilitation: For Speech-Language ...

Aural rehabilitation is also referred to as audiologic rehabilitation, auditory rehabilitation, hearing rehabilitation, and rehabilitative audiology. Some terms are more commonly used to refer to services offered by audiologists, whereas some encompass services offered by audiologists and/or speech language pathologists (SLPs).

### Aural Rehabilitation for Adults - American Speech-Language ...

Aural habilitation refers to the plan to improve communication with young children who have not yet developed spoken language. Rehabilitation is sought to improve communication ability of those who have become deaf or hard of hearing after the development of spoken language. If your goal for your child is to maximize the use of hearing and even speech, it is important to begin communication, auditory training, and speech/language therapy as soon as possible.

### Aural Habilitation/Rehabilitation | Improve Communication ...

According to the American Speech-Language-Hearing Association, early detection and early use of amplification has been shown to have a dramatically positive effect on the language abilities of a child with hearing loss. The Different Parts of Child Aural Rehabilitation “Auditory perception” is a clinical term that means helping your child:
