The Law Of Merger Control

Merger control refers to the procedure of reviewing mergers and acquisitions under antitrust / competition law. Over 130 nations worldwide have adopted a regime providing for merger control. National or supernational competition agencies such as the EU European Commission or the US Federal Trade Commission are normally entrusted with the role of reviewing mergers. Merger control regimes are adopted to prevent anti-competitive consequences of concentrations. Accordingly, most merger control regim

Merger control - Wikipedia

Merger control regimes are said to be voluntary when parties to the merger are allowed to close the deal and implement the transaction even before a merger clearance is acquired. In such cases, the parties to the merger are taking a risk that if the merger control authorities find out later that the merger transaction is more likely to result in inefficiencies, they will not be required to undo the deal.

What is Merger Control (including its types)?

Publication of the new French merger control guidelines. The French Competition Authority (FCA) recently published its new merger control guidelines which came into force on 23 July 2020 and replaced the previous ones adopted back in 2013. The adoption of these new guidelines follows a series of public consultations (the last one took place at the end of 2019) and is part of the FCA's efforts to simplify and modernize merger control in France.

Publication of the new French merger control guidelines

The turnover/assets value of a controlling seller would be excluded when calculating the target's notification thresholds, if control relations between a target and a seller cease to exist after a concentration (currently, the turnover/assets of a controlling seller are taken into account when calculating the merger thresholds of a target even if the seller loses control as a result of the transaction, and the filing may be technically triggered based on a seller only);
